Dear \_\_\_\_\_,

Do you know families looking for alternatives to the failing government school system here in Kentucky? Do you know families looking for group support to provide the infrastructure and environment for their kids to be able to learn a core curriculum, without violating our family values? Here are a youth minister's thoughts on the need for alternatives, to empower our children to succeed and get a good education:

*I remember as a young man hearing a gospel singer at church singing, "We Want America Back." As a young man, I thought, "I want America for the first time!" Often, we think of our nation in the past tense. As a result, we don't think of what the future has in store for our youth.*

*When I was a youth minister, I ministered to two generations of youth. The stories of the first generation were disappointing. Those of the next generation were heartbreaking. I saw what the world has in store for these kids, and it is only continues to get worse. As a pastor, I know that my pulpit does not have any time for politics. I want to reach my congregation with the Word of God and evangelism regardless of their political affiliation. We thought we could get results from politicians, but often, they let us down when they get power.*

*Who is going to stand up for righteousness? This is where the Kentucky Family Association comes in! For decades, our founder Dr. Frank Simon has fought the battles for life, family, and the American way. We are here to stand in the gap, and we are starting with education. When life is challenging, KFA is here to strengthen the fences and hedges around your family. Let's call upon God's angels and act like angels as our LORD of Hosts leads our way!*

*Matt Singleton*

We at the Kentucky Family Association would like to help provide some support and help coordinate some solutions to the obstacles that families are facing, regarding alternatives to the government school education.

If you have interest in hosting a presentation to families about alternatives to government school please contact our office to set up a date, time and place. If you can provide families resources (such as classroom space, educational supervision, financial support, etc). then please let us know what you can provide.

God Bless You,

Frank G. Simon, Director
